2 parking spaces

Rooftop solarium

Structure

- Reinforced concrete frame construction

Walls

- Multi-layer wall system:
- 150 mm aerated concrete blocks with enhanced acoustic insulation (Silens category)
 - 100 mm mineral wool for superior energy efficiency and soundproofing

Facade

- Two finishing options:
Natural wood cladding (Swedish production)
Porcelain stoneware combined with high-quality plaster

Interior Partitions

- 125 mm aerated concrete partitions
- Additional acoustic insulation with gypsum panels and sound-absorbing mineral wool

Thermal & Acoustic Insulation

- Impact-resistant sound insulation under all living area floors
- Underlay beneath polystyrene screed flooring
- Thermal and acoustic insulation of external partitions
- Insulated facade system

Exterior Joinery & Glazing

- Panoramic energy-efficient KÖMMERLING windows with anthracite frames and external shading system
- High-performance KÖMMERLING PVC profiles with thermal break — ensuring optimal heat and sound insulation, durability, and modern aesthetics

Interior Joinery & Finishes

These doors combine elegance with functionality — ensuring excellent sound insulation while maintaining a unified, contemporary design throughout the villa.

Entrance door with biometric access system

Type: metal door with aluminium profile and thermal break

Colour: matte white / light cream

Security: cylinder lock + fingerprint scanner

- Minimalist design with concealed hinges
- Vertical stainless-steel handle (designer feature, ergonomic in use)
- High thermal and acoustic insulation ensured by structure and installation

Interior Doors

- Model: OXFORD, minimalist style
- White panels with a vertical black inlay accentuating spatial geometry

Hardware & Fittings

- Matte black fittings (RAL 9005)
- Handles: KUBIC A, sleek straight-line design
- Locks: MAT ROCK type (WC system)
- Optional cylinder escutcheons: QTAGLIO MARIA

Electrical, Telecommunications & Automation

- High-capacity electrical wiring
- Switches and sockets by SIMON (or equivalent premium brand)
- Interior and exterior lighting by TrioLighting
- Integrated cabling system for home automation — lighting, blinds, appliances
- Smart Home system with voice control
- Smart sockets and automation for energy efficiency
- Climate control with CO₂ and humidity sensors
- Entry to the villa and gated community via facial recognition or smartphone
- Security cameras in communal areas with intelligent analytics

Water Supply, Air Conditioning & Ventilation

- Hot water supplied by an aerothermal monoblock system with a heat pump
 - Individual air conditioning and ventilation units in every room (Cooper&Hunter or GREE)
 - Electric underfloor heating throughout the villa with zonal control
-

Kitchen Area (Open-Plan with Living Room)

- Fully integrated minimalist design kitchen furniture
- Lower cabinets: matte graphite, handleless (push-to-open system)
- Upper cabinets: white, forming a clean horizontal line
- Bosch appliances: induction hob, microwave, and oven
- Backsplash: vertical white ribbed panel with subtle rhythm, softly illuminated by uniform LED profile
- Durable matte countertop with integrated rectangular sink and induction cooktop
- Porcelanosa stainless-steel tapware in geometric style with built-in drain system

Bathroom

Designed in a minimalist style using premium Porcelanosa materials — every detail optimized for daily comfort and ease of use

Finishes

- Large-format wall tiles in a neutral sandy shade with fine speckles — creating a clean and spacious look
- Integrated LED strip lighting for soft, ambient illumination
- Floating vanity with natural wood front adds warmth and texture

Sanitaryware & Equipment

Shower Area:

- FLOW SILK 160×75 KRION® shower tray (cut-to-size option)
- Built-in MONM. RONDO brass mixer from ProjectLine
- ROC. VALVULA ROUND 20 cm overhead shower + handheld shower set FLEXIBLE 150 cm, all chrome-finished

Toilet:
